

Division Picture Problems with Arrays

Use the arrays to help you solve the division problems. Draw arrays where needed.

Name: _____

Date: _____

1 There are 24 counters. They are shared equally into 6 groups. How many counters are in each group?

$24 \div 6 = \underline{\hspace{2cm}}$

2 A class has 32 pencils. They are shared equally into 8 groups. How many pencils are in each group?

$32 \div 8 = \underline{\hspace{2cm}}$

3 There are 18 stickers. They are shared equally into 3 groups. Draw an array to show how they can be shared.

$18 \div 3 = \underline{\hspace{2cm}}$

4 There are 40 beads. They are shared equally into 5 groups. Draw an array to show how they can be shared.

$40 \div 5 = \underline{\hspace{2cm}}$

5 A tray has 27 biscuits. They are packed into 9 equal boxes. How many biscuits are in each box?

$27 \div 9 = \underline{\hspace{2cm}}$

6 There are 36 counters. They are shared equally into 4 groups. Draw an array to show how they can be shared.

$36 \div 4 = \underline{\hspace{2cm}}$
